CLARESHOLM, ALTA., JULY 19, 1907.

No. 20

CHURCH OPENING

New Church of England Dedicated Here Wednesday

St. Aidan's Church, Clareholm, was opened and dedicated to public worship Wednesday last.

The Lord Bishop of Calgary and several visiting clergy were present and took part in the different services during the day. After the first part of the usual morning service which was in charge of Rev. G. Howcroft M. A. of High River the Lord Bishop of Calgary after a short address in which he congratulated the church people of Clareholm on their progress towards in building such a fine church and thanked them for what they were doing to further church work in this district, proceeded with that beautiful but solemn dedication service of the Church of England. The dedicatory sermon was preached by Canon Webb of Calgary who took for his text the 42nd verse of the 2nd chapter of the Acts of the Apostles. He spoke on the Structural principals, life and gifts of the church and his sermon was much appreciated.

In the afternoon at three o'clock the beautiful confirmation service took place in which the Lord Bishop confirmed thirteen candidates, admitting them to full membership in the Church.

The evening service at 7:30 p. m. was largely attended and well conducted throughout. The sermon by Rev. J. S. Chevers, A. K. C. Rector Letbridge was very much appreciated. It was plain straight talk on the Church and church life and directed at it was to members of a new congregation it will be long remembered by those who heard it.

At this service Rev. A. A. Cramp was inducted by the Bishop into the incumbency of St. Aidan's Church Clareholm.

The following were the Clergy present:

The Lord Bishop of Calgary.
Rev. G. Howcroft, M. A. Rector of High River.
Rev. J. S. Chevers, A. K. C. Rector of Letbridge.
Rev. W. J. Hinchey, Curate in charge of Nanton.
Rev. H. N. Pickles, Curate in charge of Dinton.

Great credit is due Rev. A. A. Cramp, the church wardens and the choir for the success of services thru out the day. Regret was felt by many that Rev. F. D. Tynes, Rector of Macleod, who has had so much to do with the building up of this parish, could not be present.

Council Proceedings

Regular meeting of council held in office of Milnes, Frost & Noble, July 11th.

Present—Mayor Moffatt; Councilors—Frost, Teskey, Clark and Bowen.

Minutes of previous meeting read and adopted.

Clark—Teskey that following bills be paid:
H. L. Wannamaker.....\$ 25.00
W. W. McAllister..... 10.00
J. S. Bicher..... 4.00
F. Jamish..... 30.00
Bowen & Simpson..... 2.50
G. Simpson..... 5.00

Carried.

Carried.

Clark—Frost that secy. be instructed to call nominations to fill vacancy made by W. McKenzie's resignation. Carried.

Clark—Teskey that we adjourn.

July 11

Regular meeting of council held in office of Milnes, Frost & Noble.
Present—Mayor Moffatt, Councilors—Clark, Teskey and Bowen.

Minutes of previous meeting read and adopted.

Clark—Bowen that the following bills be paid:

Ashtown hardware Co.....\$ 1.50
Exchangel & Draft..... 65
Tillison..... 43.90

Bowen—Teskey that we now adjourn. Carried.

FIRST DEFEAT

For Clareholm in League Game. Nanton Wins

For the first time this season the Clareholm Base Ball team went down to defeat at the hands of the Nanton fans.

The Nanton team arrived on a special car attached to the noon train and together with their supporters made up a party of nearly one hundred including many ladies. The game opened about 2:30 with Clareholm in the field. It was the first inning that the game was lost. A number of costly errors, which the Nanton team were wise enough to take advantage of, resulted in six runs for the visitors. After this inning the local team steadied down and from the beginning of the second inning to the end of the seventh the spectators had the pleasure of watching as good a sample of base ball as was ever played on the local diamond. The local team were now one run in the lead the score being 8 to 7. In the eighth with two men down another bunch of errors resulted in three more runs for Nanton and these were increased by two more in the Ninth. This left the score at the close of the game 12 to 8 in favor of Nanton.

The Umpire, Mr. Dan Lauey of Calgary was as fair as it was possible for an umpire to be. He knew the game well and did his duty faithfully.

Tough beaten fair and square in today's game there is no getting around the fact that it was the errors made by our own players that defeated us. We are confident that the best team did not win and while this was the last league game with Nanton on this season we hope that a season of the teams has now won from the other, a game may be arranged after the close of the league season to prove which is really the best team.

FOOT-BALL

Leavings Badly Defeated in League Game

On Tuesday evening by a score of 6 to 0 the Clareholm foot ball club proved their superiority over their opponents, the Leavings team. The game was so one-sided all the way through that it was not interesting from a spectator's standpoint and the large crowd that gathered to see the game was disappointed. Many thought that Leavings would be represented by a stronger team than played here on July 1st but the team seems to be weaker even than on that date. The home team played a much better game than on the first of July and seemed to have their opponents at their mercy apparently being able to score when ever they wished.

I.O.O.F. Installation

The following officers were installed in their respective stations at the I. O. O. F. lodge rooms, Clareholm, Monday, July 15th. D. D. G. M.

Lyndon officiated:
J. P. G.—H. O. Haslam
N. G.—Jas. Clark
V. G.—H. G. Y. Husem
R. S.—Chas. James
F. S.—W. P. Teskey
Treas.—C. E. Tillison
War.—Geo. Simpson
Com.—Dr. Stevens
I. G.—W. C. Bowen
H. S. N. G.—W. G. Wrong
L. S. N. G.—W. Barnard
R. S. V. G.—A. Wylie
L. S. V. G.—G. Hingrose

I. O. O. F. Installation, at Slavey

The following officers of Beaver Lodge, No. 27 I. O. O. F. Slavey, were installed on July 10th by D. D. G. M., Lyndon:

P. G.—A. D. Kellogg
N. G.—T. P. Franks
V. G.—S. Severson
R. S.—A. Darling
Treas.—F. A. Ostrem
War.—S. Severson
Com.—H. Flaise
I. G.—J. W. Wilford
O. G.—P. Noyer
R. S. N. G.—A. E. Rolger
L. S. N. G.—B. Cooper
R. S. V. G.—R. W. Bartlett
L. S. V. G.—B. J. Ostrem
R. S. N. G.—T. Wilson
L. S. N. G.—A. S. Thompson
Chap.—Rev. A. Darling

Organist—J. Beatty.

After the installation a banquet was given in the Slavey hotel which was well attended by Old Fellows from surrounding towns.

The D. D. G. M. presided and the programme presented did credit to the Slavey boys.

Died

On Monday last the home of Mr. and Mrs. O. J. Amundsen was saddened by the death of their youngest son, Harold, age 14 months, the child had been ailing for only a few days and his death came as a great shock to the family. They have the sympathy of the entire community in their sad bereavement.

The funeral service was held at the house at four o'clock Tuesday afternoon. The Revs. Argue and Hildrad officiating.

Prof. Campbell's Address

(CONTINUED FROM LAST WEEK)

In Western Kansas we have a farm we have had charge of for 3 years. Seven crops have been harvested and the smallest crop was 40 bushels to the acre. The year we got the average farmers round were getting nothing. In east Colorado where 4 or 5 years ago you could have bought any amount of land for 40 or 50 cents an acre we had there one year 60, 50 and 60 bushels to the acre. Now I want to impress some things upon your minds. One is that you can never get good results from a piece of ground that is ploughed dry. The ground must be ploughed when it is moist—not too wet, and when it is not dry. The result in yield will be exactly in proportion to the physical condition of the soil. If you do the right thing at the right time you will get marvellous results. There is no question but what all this semi-arid belt where the soil formation seems so much alike—up here in Canada, or Texas or Mexico and the Dakotas there seems to be a great uniformity in the general conditions—there is no question in my mind but what you can do up here all we have done down there and do it every year. The question is how will you do it? One of the things we insist upon is summer tilling, not summer following. We do not allow a weed to grow anywhere on the ground. I have seen a good many pieces of land in this country with good healthy crops of weeds on them—what I suppose they call summer following. In 1898 a gentleman rented a piece of ground across the railway track from what we call the model farm. He desired to follow our system. He summer tilled the land and when it came to the seedling part of it there was no doubt he had done the work very nicely. I advised him to sow 20 pounds to the acre and he said, "Now I can't get down to that. I have been in the habit of sowing a bushel and a half but after a little talk he sowed 30 lbs of seed and felt very nervous then as to the result, but owing to his method of cultivation the wheat turned out too thick and when it came to test it at the mill, altho the yield was 48 bushels to the acre, it only tested 50 pounds. The average yield in that locality that year ran probably from 13 to 15 bushels to the acre. 40 miles west of there it was from nothing to possibly 10. This gentleman got 45 bushels to the acre and was an enthusiastic over the result that he decided to follow our plan entirely.

WHEN THE CROP IS CUT ALWAYS DISK THE LAND

We insist upon one thing, and that is when the crop is cut, disk the land, follow the harvester and double disk it as soon as the crop is got off. This gentleman followed the harvester and double disked as fast as the grain could be got off—shortly after the thrasher came along and threshed it out and I suppose three weeks would cover the period. He had gone around it 2 or 3 rods wide when he was called away to the bed of a sick friend and it was 5 weeks or so when he got back. He followed it over with a surface packer and then followed it with a harrow—and to make the field apparently more alike there then came a rain—and the next day it was dry enough to harrow and it was harrowed over I saw the field at this point and it looked as pretty as could be. There was no perceptible difference and I dare say the gentleman himself in it there would be no difference in results, but I happened to be the foreman, "Watch that field, I think it will be a demonstration." When the crop was ready to cut, myself and two other men, one of whom had expected for the Burlington road to be selling wheat, a good judge and a good man, all agreed that the outside strip would make fifty bushels to the acre and the inside would make twenty. Thirty bushels difference and I do not think we were at all out in our estimate if we were out of the way we had not made difference enough. For tillity of soil was the cause of success in crops. This fertility does not exist in the soil itself but is developed in the growing season just in proportion to the physical condition of the ground, the condition by which we are enabled to control the elements which when combined go to make up the growth of the plant heat, air, water and light. We get

Synopsis of Coal Mining Regulation

Coal mining rights of the Dominion, in Manitoba, Saskatchewan, Alberta, the Yukon, Territories, the North-west Territories and British Columbia, may be leased for a term of twenty years at an annual rental of \$100.00. The area must be at least 200 acres and will be leased to one person.

Application for a lease must be made to the agent or sub-agent of the Dominion in which the rights are to be leased. The agent must be satisfied that the land is suitable for coal mining and that the applicant is a bona fide coal miner.

Each application must be accompanied by a fee of \$5.00 which will be refunded if the rights are not leased. The fee will be refunded if the rights are not leased.

For lease of coal mining rights which are being operated shall forthwith this district agent of the Dominion must be made. The agent must be satisfied that the land is suitable for coal mining and that the applicant is a bona fide coal miner.

For other information application should be made to the agent or sub-agent of the Dominion in which the rights are to be leased. The agent must be satisfied that the land is suitable for coal mining and that the applicant is a bona fide coal miner.
